The "Approve Manuscript" action can be taken only by the corresponding author or a co-author who has submitted the paper. Manuscripts posted on medRxiv cannot be removed. Posted preprints receive DOI's and thus are citable and part of the scientific record.

Note: Only individuals who have contributed to the work reported in the paper and consented to its submission should be listed as authors. Submission of false information will result in the manuscript's withdrawal from medRxiv with a public statement about the ethics breach and your institution will be notified.

If the "Approve Manuscript" button is not active, please verify the email address you submitted for this manuscript matches your account email address.
